

KAISER PERMANENTE. **thrive**

CULTIVATING AWARENESS IS GOOD HEALTH.

Practice protection through detection. Breast cancer is most treatable when detected early. Regular self-exams, clinical breast exams, and mammograms can be valuable screening tools.

BREAST CANCER

Breast cancer is one of the most common cancers among women in the United States. Visit kp.org/breastcancer to learn more about:

- **Recommended screenings.** Understand the methods commonly used to detect breast cancer.
- **Risk factors.** Know how your health history affects your risk, and learn about risk factors you can control.
- **When to see your doctor.** Learn which regular checkups to have and which symptoms to watch for.
