| <b>QUALIFIED DEFAULT INVESTMENT ALTERNATIVE</b> |
|---|

You have the right to direct the investment of your account among any of the investment options available under the Plan. Information concerning the available options has been provided to you. If you become a participant in the Plan and do not have an investment election on file, any contribution made on your behalf will be invested in the Plan's qualified default investment, the Pensionmark Asset Allocation Portfolio, based on your year of birth, according to the chart below:

| <b>Date of Birth</b> | <b>Default Investment</b>           |
|----------------------|-------------------------------------|
| On or before 1953    | Pensionmark Asset Allocation Income |
| 1954 - 1958          | Pensionmark Asset Allocation 2020   |
| 1959 - 1963          | Pensionmark Asset Allocation 2025   |
| 1964 - 1968          | Pensionmark Asset Allocation 2030   |
| 1969 - 1973          | Pensionmark Asset Allocation 2035   |
| 1974 - 1978          | Pensionmark Asset Allocation 2040   |
| 1979 - 1983          | Pensionmark Asset Allocation 2045   |
| 1984 - 1988          | Pensionmark Asset Allocation 2050   |
| 1989 - 1993          | Pensionmark Asset Allocation 2055   |
| 1994 or later        | Pensionmark Asset Allocation 2060   |

*If John Hancock does not have your date of birth on file, contributions will be invested instead in the Pensionmark Asset Allocation Income Portfolio until a valid date of birth is obtained by John Hancock.*

**IMPORTANT INFORMATION  
REGARDING THE  
CARPENTERS ANNUITY TRUST FUND FOR NORTHERN CALIFORNIA**

This investment is intended to satisfy the requirements for a "qualified default investment alternative" ("QDIA") under the Employee Retirement Income Security Act of 1974 ("ERISA"). A copy of the Fund Fact Sheet for the Plan's default investment is attached to this Notice.

If you do not make an investment election and your account is invested in the QDIA, you may transfer all or any part of it from the QDIA into any other investment options by contacting John Hancock. Information regarding all of the Plan's investment options and procedures for changing investment elections is available by contacting John Hancock.

Amounts defaulted into the Plan's Stable Value Option prior to December 24, 2007 will also be considered a QDIA pursuant to a special QDIA transition rule.

**About Risk**

**Investing in Target Date Funds:** The "target date" in a target date fund is the approximate date an investor plans to start withdrawing money. Because target date funds are managed to specific retirement dates, investors may be taking on greater risk if the actual year of retirement differs dramatically from the original estimated date. Target date funds generally shift to a more conservative investment mix over time. While this may help to manage risk, it does not guarantee earnings growth nor is the fund's principal value guaranteed at any time including at the target date. You do not have the ability to actively manage the investments within target date funds. The portfolio managers control security selection and asset allocation. Target Date funds allocate their investments among multiple asset classes which can include U.S. and foreign equity and fixed income securities.

**FOR ADDITIONAL INFORMATION**

You should consult the Plan document and SPD for a complete explanation of the Plan's features and information. You may view and/or obtain a copy of the SPD by contacting John Hancock. You can also obtain additional information about the Plan by contacting John Hancock or by contacting the Plan Sponsor.

This Notice is not intended to, nor should you construe it as, modifying any aspect of the current Plan document or SPD.

**INVESTMENT STRATEGY:** Target date portfolios are also offered as investment options in the Plan. Each portfolio is structured to achieve the highest potential rate of return for its objective and level of risk by allocating assets in varying percentages to different asset classes, represented by mutual funds and the Stable Value Option. The Portfolios themselves are not mutual funds. The underlying investment options that make up this portfolio were selected by a financial intermediary not associated with John Hancock Retirement Plan Services, LLC. This portfolio will be re-balanced quarterly by John Hancock Retirement Plan Services, LLC and reviewed annually by the intermediary to ensure that the allocation percentages continue to fit the Portfolio's objective.

The target date is the expected year in which participants in a Target Date Portfolio plan to retire and no longer make contributions. The investment strategy of these Portfolios are designed to become more conservative over time as the target date approaches (or if applicable passes) the target retirement date. The principal value of your investment as well as your potential rate of return, are not guaranteed at any time, including at or after the target retirement date. An investor should examine the asset allocation of the fund to ensure it is consistent with their own risk tolerance.

**INVESTMENT STRATEGY:** Target date portfolios are also offered as investment options in the Plan. Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be less or higher than the figures shown. Investment return and principal value will fluctuate so that upon redemption, shares may be worth more or less than their original cost. Performance data does not reflect deduction of redemption fee, which, if such fee exists, would lower performance. The target date is the expected year in which participants in a Target Date Portfolio plan to retire and no longer make contributions. The investment strategy of these Portfolios are designed to become more conservative over time as the target date approaches (or if applicable passes) the target retirement date. The principal value of your investment as well as your potential rate of return, are not guaranteed at any time, including at or after the target retirement date. An investor should examine the asset allocation of the fund to ensure it is consistent with their own risk tolerance.

**INVESTMENT STRATEGY:** Target date portfolios are also offered as investment options in the Plan. Each portfolio is structured to achieve the highest potential rate of return for its objective and level of risk by allocating assets in varying percentages to different asset classes, represented by mutual funds and the Stable Value Option. The Portfolios themselves are not mutual funds. The underlying investment options that make up this portfolio were selected by a financial intermediary not associated with John Hancock Retirement Plan Services, LLC. This portfolio will be re-balanced quarterly by John Hancock Retirement Plan Services, LLC and reviewed annually by the intermediary to ensure that the allocation percentages continue to fit the Portfolio's objective.

## Principal Risks

**Portfolio Risk:** This not a mutual fund, prospectuses are not required, and prices are not available in local publications. The portfolio allocates its investments among multiple asset classes, which can include U.S. and foreign equity and fixed income securities. Foreign investing involves risks not associated with U.S. investments, including currency fluctuations and political and economic changes. These risks are likely to be greater for emerging markets than in developed markets. Portfolios that invest in bonds are subject to interest-rate risk and can lose principal value when interest rates rise. The portfolio may also allocate its investments in growth and value stocks, real estate investment trusts, and corporate and U.S. government bonds. Asset allocation does not ensure a profit or protection against a loss. Please note that asset allocation may not be appropriate for all participants particularly those interested in directing investment options on their own. Consider the investment objectives, risks, charges, and expenses of the fund carefully before investing. An investor should examine the asset allocation of the portfolio to ensure it is consistent with their own risk tolerance.

**Private Fund:** The fund is not a mutual fund and is privately offered. Prospectuses are not required and prices are not available in local publications.

**Target Date:** Target-date funds, also known as lifecycle funds, shift their asset allocation to become increasingly conservative as the target retirement year approaches. Still, investment in target-date funds may lose value near, at, or after the target retirement date, and there is no guarantee they will provide adequate income at retirement.
